A delegation comprising 12 representatives—six from Nepal and six from India—attended the conference. Among them were the Chairman of TCC Nepal and the President of TCC India, both of whom actively represented their respective chapters.

We extend our sincere gratitude to the Singapore Business Federation for inviting TCC to be part of this important event. UPCOMING PROJECTS

Fund Raising (CSR and other source)

The Tibetan Chamber of Commerce (TCC) is currently facing significant financial challenges, which hinder its ability to fully support its members and the wider Tibetan business community. Recognizing the importance of a stable financial foundation, TCC is prioritizing efforts to improve its financial standing through strategic fundraising initiatives. These include exploring funding opportunities via Corporate Social Responsibility (CSR) activities and planning a distinctive raffle lottery event aimed at both raising funds and increasing community engagement. Moving forward, TCC will place a stronger focus on fundraising in the upcoming year to ensure it can better serve its members and contribute effectively to the growth of Tibetan entrepreneurship.

Taiwan Delegation

As part of its core objective to provide members with greater exposure and enhanced business opportunities, the Tibetan Chamber of Commerce (TCC) has actively organized trade delegations to various countries in the past, including the United States and several European nations. Continuing this initiative, TCC is planning to lead a trade delegation to Taiwan this year. Taiwan has been identified as a strategic destination due to its advanced technological infrastructure, availability of modern tools, and strong economic performance, which present valuable opportunities for collaboration and investment. In preparation for this initiative, the President of TCC has already met with Mr. Jason, a representative of the Taiwan Chamber of Commerce, to discuss potential support and coordination for the upcoming delegation visit.

Incubation Centre

The Tibetan Chamber of Commerce (TCC) is planning to establish a business incubation centre within its office premises, with the aim of providing targeted support to new entrepreneurs, as well as small and medium-sized business owners within our membership and the broader Tibetan business community. This initiative is intended to address the growing need for professional guidance and legal compliance among Tibetan businesspeople, many of whom are currently facing legal challenges related to their business operations. The proposed incubation centre will serve as a resource hub where members can receive direct assistance in conducting their businesses lawfully and efficiently. The centre will offer a range of services, including support with tax and GST filing, as well as assistance with accounting, financial management, and legal compliance. Through this initiative, TCC seeks to empower its members by providing practical, on-the-ground support and education to help them grow and sustain their businesses responsibly.
